LYNX[®]

A full-page photograph of rally hero Jari-Matti Latvala riding a snowmobile through deep snow. He is wearing a red and black racing suit, a white helmet with red and black graphics, and goggles. The snowmobile's headlights are on, illuminating the snow. In the background, a faint, stylized image of a lynx's head is visible on the left side.

READY FOR AN ADVENTURE

Planning is often half the fun of a winter adventure. Once you have gathered your friends, figured out your route and serviced your sled, it is time to add the finishing touch – with accessories and riding gear worthy of you and your Lynx sled.

Thanks to the Lynx accessories, your sled will always be up to the task, regardless of the terrain and the destination. Specially designed for riders, the riding gear keeps you warm and dry whatever the weather as well as improving your safety.

Original Lynx accessories and riding gear are designed for extreme Northern conditions and endure heavy use for many years and adventures to come – just like your Lynx sled.

RALLY HERO ALSO ENJOYS SPEED ON A SNOWMOBILE

Snowmobiles have been a part of Jari-Matti Latvala's life almost as long as cars. Latvala and BRP also have a long history together which even includes racing.

Jari-Matti Latvala fell in love with snowmobiling as soon as he first gripped the handlebars of a sled at the age of seven.

– I was spending Easter in Ylläs with my family, and there was a place where you could hire little snowmobiles for half an hour at a time near Äkäslompolo. I hired one out with a friend, and we got so into it that the hire place staff had to come and find us when our time was up.

FROM FAMILIAR TRACKS TO PROFESSIONAL RACING

Latvala began to ride snowmobiles more seriously around the age of 12, when he discovered his father's Lynx. Latvala grew up in Ostrobothnia, and there were routes all around his home, in addition to which the family took winter holidays in Lapland.

Latvala took part in his first karting competition at the age of seven, but karting was by

no means the only motorsport close to the young racer's heart.

– I first raced my own snowmobile at the age of 13. It was in the 380-cc fan-cooled class, Latvala reminisces. – I used to really enjoy it, but after a couple of races I had to accept that with the speed of the guys from up north, I was never going to make a career out of it.

TOWARD DEEPER SNOW

Latvala's life as a rally driver is too hectic to spend much time on a snowmobile at the moment. In recent years, he has only managed to rack up around 600 miles per winter.

He would like to ride more, if only he had the time.

– Snowmobiling is a great way to enjoy a sense of freedom and of course speed, and it is also a highly physical sport and therefore a good form of strength training. The best thing about snowmobiling is the chance to see amazing places and views that are inaccessible by car or on foot. I would like to try deep-snow riding on a Lynx BoonDocker somewhere in Lapland, maybe even go on a longer trip. So far I have mostly done day trips on marked routes.

Latvala's own sled is a Rave RE 600 E-TEC, which he praises for its suspension.

– Good suspension is critical in both a rally car and a snowmobile. You can ride any sled over an even surface but you can definitely feel the difference as soon as you hit a bump. My Rave glides over bumps really smoothly. I also get a very soft landing when I jump.

mobiling: You need to be able read the route and anticipate changes. The faster you go, the more challenging this becomes. Snowmobiling is good for practicing your reaction speed and training your eye, which is also helpful for rallying.

In addition to physical exercise, snowmobiling has given Latvala numerous unforgettable experiences, most recently last winter:

– We were shooting a video at BRP's test track in Rovaniemi. We rode up the hill and the snow was totally untouched in places. The temperature was below zero but the sun was shining from a clear blue sky, and the views were truly amazing. •

SNOWMOBILING IS GOOD PRACTICE FOR RALLYING

There are a lot of snowmobile enthusiasts among rally drivers, and Latvala sees many similarities between the two sports.

– Rally driving is all about having a feel for the road and constantly assessing how the road is going to turn and behave next. The same goes for snow-

DEEP SNOW SPORT

DEEP SNOW SPORT. RECOMMENDED ACCESSORIES:
BOONDOCKER DS 3900 800R E-TEC.

The Lynx BoonDocker sled is your ticket to ride in ultimate freedom: the deepest snows and the steepest slopes. The Lynx accessories, designed for the untamed wilds, allow your sled to show off its strengths amidst billowing powder snow. Which peak will you conquer on your next adventure?

BLADE SKI, GREEN
860201016

Personalize your sled with green Blade skis. Designed for aggressive free-riding, the ski offers not just excellent steering but also a more comfortable riding experience and even better load capacity.

GPS KIT
860200631

Track your best routes! The Garmin Montana 650T GPS kit is one of the best on the market and designed to fit your sled perfectly. Supplied with a plug-and-play wire harness. You will also need a glove compartment extension (860200707). Topographic maps are sold separately.

GLOVE COMPARTMENT EXTENSION, BLACK
860200707

Thanks to the handy extension, you get 50% more storage space in your sled. The glove compartment extension replaces the lid of the standard compartment, and its front panel makes an excellent docking station for your GPS.

HANDLEBAR AIR DEFLECTORS

619400081

Protect your hands against arctic winter storms! These hard-wearing air deflectors stay in place and won't interfere with your riding experience.

LinQ BAG, SMALL

860200918,
10 + 3 L

The LinQ system lets you customize the storage space in your sled and attach your bags securely. The stylish black bag is supplied with the LinQ attachment system (860200583).

ABS AVALANCHE AIRBAG SYSTEM BASE UNIT

4475907290, S-M

4475909190, M-L

This accessory is your best life insurance in avalanche areas: 97% of avalanche victims who activated their ABS Airbag survived and 84% were totally unharmed. The airbag takes just one tug to activate. The bag has designated spaces for a shovel and an avalanche rod as well as safe compartments for your valuables.

LED BOOSTER LIGHT

860201050

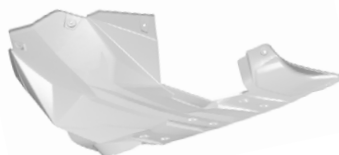

The first fully-integrated booster light on the sled market produces a powerful, almost 180° beam of light in front of the sled and to the sides. The light attaches handily underneath the standard headlamp and it has ON, OFF and ON HI settings. You no longer have to sacrifice your low beam when you switch to high.

SKID PLATE

860201047

A must-have accessory for challenging terrain – provides extra protection for your BoonDocker's front frame and suspension.

FRONT FOX® FLOAT III SHOCKS

860200958

Lose up to 6 pounds (2.7 kg) over coil spring shocks. Calibrated for optimum performance on BoonDocker sleds. Negative spring. Infinitely adjustable main air chamber pressure. IFP (Internal Floating Piston). Advanced high-flow velocity-sensitive damping. Fully rebuildable and revalveable. Comes with a Fox air pump for pressure adjustment. (REX, REX²) 36" front suspension.

ADJUSTABLE RISER

860201123 Straight handlebar 130-205 mm

860201124 Straight handlebar 185-250 mm

860201125 Tapered handlebar 115-175 mm

860201204 Straight handlebar 115-160 mm

Maximize your riding comfort by adjusting your riding position to whatever terrain you are in. With a riser you can adjust the height of your handlebar quickly and easily, without tools.

SEMI RIGID BAG, 15 L

860201155

This practical, attractive bag fits perfectly underneath the LinQ rack, complementing the style of your BoonDocker sled. Installation requires a LinQ rack (860201059), sold separately.

SNOWBOARD/SKI RACK SYSTEM

860200986

From the sled straight to the slope: now you can easily take your skis or snowboard along. The LinQ-fastening allows for quick and easy mounting and removal of the rack. Requires heavy-duty rear bumper, see page 55.

LinQ JERRY CAN

860200733

Thanks to the handy LinQ attachment system, the jerry can can be detached and reattached to the sled in seconds.

POWDER PLOW SNOW DEFLECTOR

860200603 + 860200937

Specially designed for powder snow, the plow deflects snow to the sides and away from the rider's face. You get better visibility and stay drier. The plow is easy to install underneath the windshield support.

OGIO + LYNX: NEW BAGS FOR AN AD

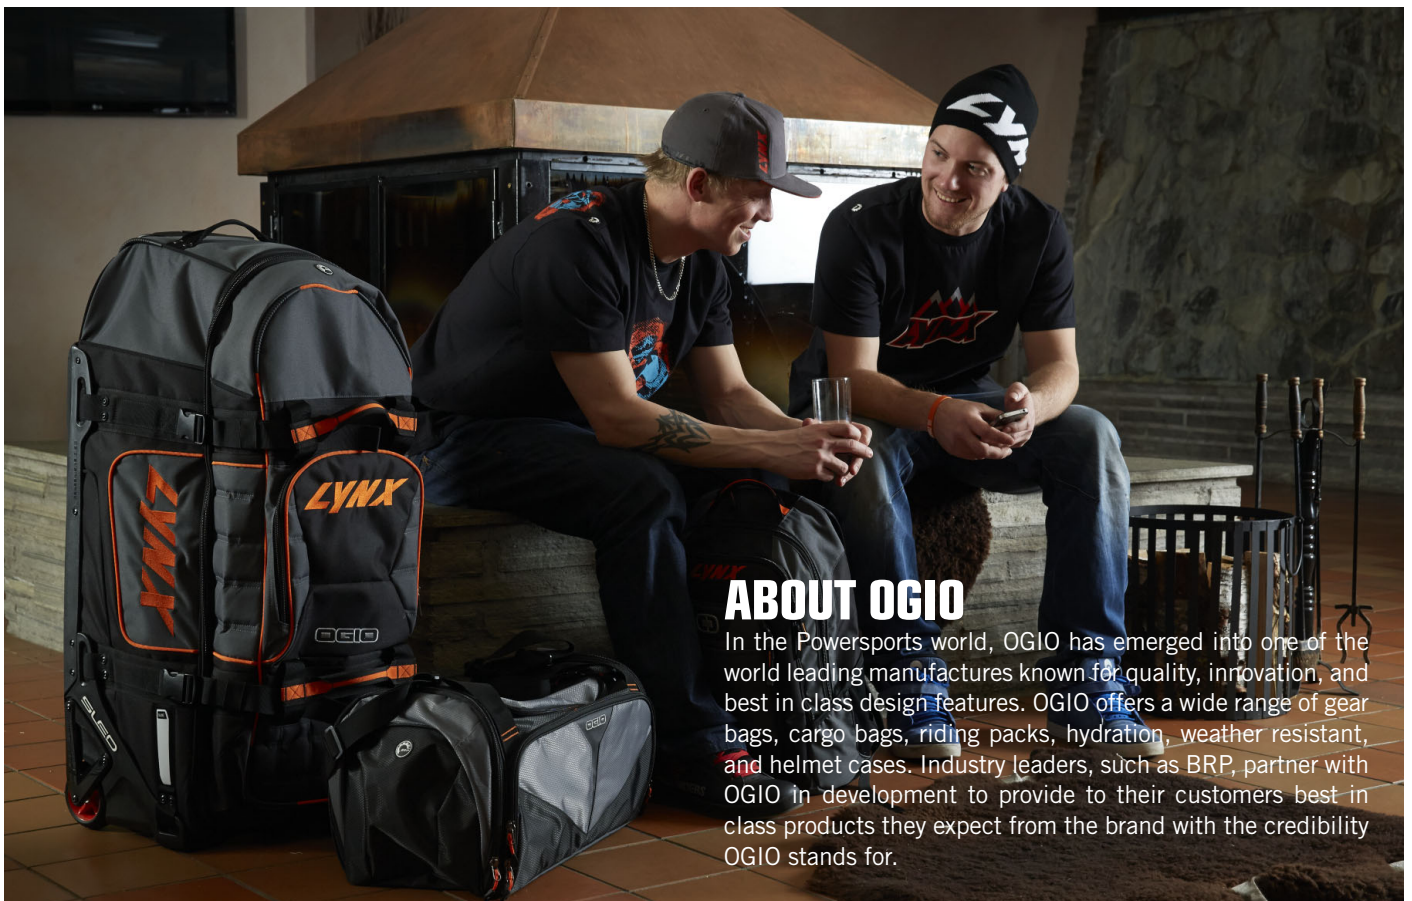

N LYNX GEAR BAG BY OGIO

This premium carry bag is designed for your longer adventures. The bag's wide mouth lid opening offers easy access to all compartments and specialty pockets. Multiple zippered mesh pockets and adjustable main compartment dividers help keep your belongings organized. The iFom⁺ integrated foam panel construction throughout the bag gives added protection. Thanks to the large heavy duty treaded wheels and telescopic handle, the bag is light to pull even when full.

6680110090

Dimensions: 40 x 43 x 91 cm (H x W x D)

Material: 75% Polyester, 25% Plastic. Structural Load Equalization Deck (SLED) wheeled chassis system.

ABOUT OGIO

In the Powersports world, OGIO has emerged into one of the world leading manufactures known for quality, innovation, and best in class design features. OGIO offers a wide range of gear bags, cargo bags, riding packs, hydration, weather resistant, and helmet cases. Industry leaders, such as BRP, partner with OGIO in development to provide to their customers best in class products they expect from the brand with the credibility OGIO stands for.

READY VENTURE

N

LYNX DUFFLE BAG BY OGIO, 50 L

This casual and cool-looking bag has a large main compartment with additional end storage pocket, plus a zippered front accessory pocket. A large ventilated shoe compartment holds two pairs of your favorite shoes. The padded, ventilated and adjustable shoulder strap and sweat-resistant, soft, molded carry handle make the bag comfortable to carry. Thanks to the strong, durable and lightweight construction, this bag will take you from one adventure to another.

6680100090

Dimensions: 28 x 25 x 64 cm (H x W x D)

Weight: 725 g

Material: 100% Polyester

N

LYNX BACK-PACK BY OGIO

The Lynx back-pack will accompany you to your adventures. It has a comfortable padded back panel and adjustable ergonomic shoulder straps, so it won't strain your back or shoulders. There is plenty of room for everything you need with you on a day's ride: a large main compartment, a zippered fleece-lined top valuables pocket and dual-side holders for beverages and accessories. The padded interior laptop compartment fits most 17" laptops, and there's a separate padded sleeve for a tablet. Your electronics and other valuables are protected by iFom⁺ integrated panels.

6680090090

Dimensions: 48 x 40 x 19 cm (H x W x D)

Material: 100% Polyester

RECCO®
AVALANCHE RESCUE SYSTEM

IMPROVING SNOW SAFETY

When used with avalanche awareness training, a transceiver and other backcountry safety essentials, the Recco system adds another layer of protection. It can pinpoint the exact location of a burial with harmonic radar and is an additional tool that does not interfere with other rescue methods such as avalanche dogs, transceiver searches or probe lines. Since the reflector is integrated into the jacket and/or highpants, it requires no action on the part of the snowmobiler to function properly. Recco-equipped gear can be washed without damage and will not interfere with any electronic device since it does not transmit any sort of signal. It is not intended for self-rescue and is not an alternative to transceiver use in the backcountry.

More than 100 organizations, including search and rescue teams, utilize **RECCO**® technology.

SPORT

THE LYNX DENALI RACE EDITION RIDING SUIT is designed for masters of trails and racing tracks who want to ride and live to the max. The dynamic and trendy look fits perfectly with the design of your Lynx Rave sled.

Sizes: XS - 3XL
Shell Fabric: Nylon.

- Orange safety color

SPORT

SPORT. RECOMMENDED ACCESSORIES: RAVE RE 800R E-TEC.

On a Lynx Rave sled, you will be the first to cross the finish line, even if the route takes you across the roughest of bumps. You can best highlight the undisputed top-grade qualities of your sled with Lynx accessories, designed for the most challenging of trips. What terrains will you tame on your adventure?

HANDLEBAR BAG, SMALL

860200920

Now you can pack everything you need in rough terrain! The 3W heater (sold separately, 515176786, requires Heated Visor Kit 860200628 sold separately) in the bag which attaches to the handlebar keeps your cell phone and GPS warm and functional however cold it is out there. The bag also contains insulated pockets for two 0.5-L bottles. RCA Adaptor plug kit (515176794) is sold separately.

VENTILATION KIT

860200684

These custom-made valves quickly lower the temperature in your engine bay in heavy use. Designed for racing tracks, the kit is easy to install in most chassis panels.

LinQ
SYSTEM™

LinQ BAG, SMALL, 10 + 3 L

860200918

The LinQ system lets you customize the storage space in your sled and attach your bags securely. The stylish black bag is supplied with the LinQ attachment system (860200583).

LED BOOSTER LIGHT

860201050

The first fully-integrated booster light on the sled market produces a powerful, almost 180° beam of light in front of the sled and to the sides. The light attaches handily underneath the standard headlamp and it has ON, OFF and ON HI settings. You no longer have to sacrifice your low beam when you switch to high.

SKID PLATE

860201047

Extra protection for the front frame and suspension of your sled on rough trails.

WINDSHIELD, MEDIUM

860201071

Protect yourself from the wind with a high windshield that complements the style of your sled.

SIDE COVER AIR DEFLECTORS

860201068

Complete the sporty look of your sled with air deflectors that deflect the wind past your legs.

BLADE SKI, RED

860201017

Designed for aggressive trail riding, the ski offers extremely precise steering and a comfortable riding experience even in high speeds, without pulling or darting.

GPS KIT

860200631

Track your best routes! The Garmin Montana 650T GPS kit is one of the best on the market and designed to fit your sled perfectly. Supplied with a plug-and-play wire harness. You will also need a glove compartment extension (860200707). Topographic maps are sold separately.

GLOVE COMPARTMENT EXTENSION

860200707

Thanks to the handy extension, you get 50% more storage space in your Rave sled. The glove compartment extension replaces the lid of the standard compartment, and its front panel makes an excellent docking station for your GPS.

QRS RACING SUPPORT

860200783

QRS tower support as is used by the factory snowcross teams. Helps to keep the pulley alignment ideal in all conditions.

SPORT

MAKES

SCS Unlimited YOU LOOK GOOD ON THE SNOW

The Montana-based design company creates custom graphics kits for Lynx sleds. For model year 2015, they took on a new kind of design challenge: graphics for the new Lynx helmet.

We have had lots of experience with apparel design in the past, but it was mainly limited to clothing and riding apparel. Creating a helmet design was certainly a new concept for us, says Devin Karr, graphic designer and president of SCS Unlimited.

The graphics for sleds or apparel cannot be created in an instant: the process is more likely to take months.

— We worked on multiple creative directions for 2-3 weeks. Once we had a direction finalized with the Lynx team, we sent the

graphics off for a sample to be produced. It took a couple of months to get the helmet back, and after seeing the prototype, we made a few final adjustments before the helmet was sent off for production.

The round shape of the helmet had to be taken into consideration throughout the process.

— It's always tricky when you are trying to put a 2D design onto a 3D surface. It is also difficult with a sled, but fortunately there are a lot of flat panels to work with on the snowmobiles. The

We wanted the colors to work with not only the Rave crowd, but with BoonDockers enthusiasts as well.

roundness of the helmet really did make the design process more challenging. We used the actual helmet quite a bit when testing the lines of the design, to make sure everything lined up.

GRAPHICS FOR ALL GENERATIONS

One of the main objectives of the helmet design was a wide range of appeal.

– With the new Lynx helmet design, we knew we would need to create something that would speak to all generations. When designing a sled wrap, we know that we have many different options for consumers to choose from. With the helmets, there are far fewer designs to choose from, so we knew we would need to create something that was versatile, says Devin Karr.

Another important aspect was to keep the whole Lynx look unified.

– We definitely tried to utilize the look and feel of the Lynx sleds and riding suits as a source of

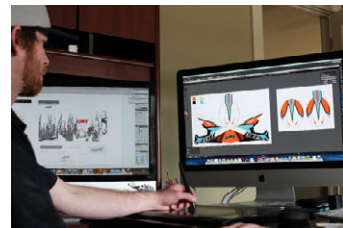

inspiration. I think it's important to make sure all the elements of the package complement each other when put together. We wanted the colors to work with not only the Rave crowd, but with BoonDockers enthusiasts as well.

WRAPS THAT MAKE YOU STAND OUT

In addition to the Lynx helmet graphics, SCS is introducing several exclusive new Lynx sled wrap kits for model year 2015. Devin Karr thinks the designs offer something for everyone:

– The new Hydro design has a great illustrative hand-drawn style, and the

Traction design should get the racers revved up. We also have the new Outbound design, which includes the factory BoonDockers logos. We try to offer a wide variety of color schemes, but the beauty of an SCS wrap is that we will happily change the colors and customize the design to set you apart from the rest! •

Exclusive new Lynx sled wrap kits for model year 2015 (from top): Boss, Fusion, Pixelar, Outbound, Traction and Hydro.

CROSSOVER

LYNX VALDEZ RIDING SUIT offers versatility and ultimate comfort – just like your Lynx Xtrim sled. The sporty jacket and hard-wearing pants keep you dry and warm on long trips and in challenging terrains.

CROSSOVER

CROSSOVER. RECOMMENDED ACCESSORIES: XTRIM SC 900 ACE.

The sleds in the Lynx Xtrim model range are designed to be tireless jacks of all trades, allowing you to get maximum enjoyment out of the winter. The comprehensive selection of Lynx accessories boosts the versatility of your sled to the stratosphere. Where will your adventure take you, when no trip is impossible?

BEST SELLER
SIDE COVER AIR DEFLECTORS
860201068

Complete the sporty look of your sled with air deflectors that deflect the wind past your legs.

LinQ CARGO BOX, 40 L

860201196 · Black

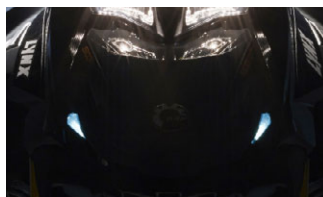

Rigid molded plastic construction with integrated design. Provides safe storage. Attaches using 2 sets of LinQ mounts (included).

HANDLEBAR BAG, LARGE

860200919

Now you can pack everything you need in rough terrain! The 3W heater (sold separately, 515176786, requires Heated Visor Kit 860200628 sold separately) in the bag which attaches to the handlebar keeps your cell phone and GPS warm and functional however cold it is out there. The bag also contains insulated pockets for two 0.5-L bottles. RCA Adaptor plug kit (515176794) is sold separately.

SIGNATURE LIGHTS

860201074

This stylish LED set puts the finishing touch to your Lynx, accentuating its elegant outlines. A standard accessory of the 800R E-TEC series, the lights are now available as an optional feature for all REX² snowmobiles.

LinQ DOUBLE SEAT

860201181

This luxurious new seat is the height of modular seats and provides optimal comfort to driver and passenger alike. Without any tools, the sled can quickly and easily be changed from a one-seater into a two-seater and back. Includes complete seat kit with backrest. Installation requires a LinQ anchor base kit (860201111, see p. 51), sold separately.

HEATED 1+1 GRIP WITH GUARD

860200584

Fits on LinQ two-up seat (860201181)

EXTRA BUMPER

860200932 Black

860201099 Aluminium

A stylish aluminum bumper that gives your Xtrim sled extra protection in challenging terrain.

WINDSHIELD, HIGH

860201070

Protect yourself from the wind with a high windshield that complements the style of your sled.

BLADE SKI, BLUE

860201015

Designed for arctic conditions, the multilayer bottom structure of the Blade ski, 188-mm width and aggressive profile guarantee directional stability and precise steering.

LED BOOSTER LIGHT

860201050

The first fully-integrated booster light on the sled market produces a powerful, almost 180° beam of light in front of the sled and to the sides. The light attaches handily underneath the standard headlamp and it has ON, OFF and ON HI settings. You no longer have to sacrifice your low beam when you switch to high.

RE SHOCK KIT, KYB 46 HLCR

860201052

Shock absorber kit for the rear, complete

860201051

Shock absorber kit for front, complete

GLOVE COMPARTMENT EXTENSION

860200707

Thanks to the handy extension, you get 50% more storage space in your Xtrim sled. The glove compartment extension replaces the lid of the standard compartment, and its front panel makes an excellent docking station for your GPS.

GPS KIT

860200631

Track your best routes! The Garmin Montana 650T GPS kit is one of the best on the market and designed to fit your sled perfectly. Supplied with a plug-and-play wire harness. You will also need a glove compartment extension (860200707). Topographic maps are sold separately.

J-HOOK

860200886

Hook on a cargo sled and you're good to go. This hook kit transforms your sled into a beast of burden. Available for models with a reinforced rear bumper.

READY FOR AN ADVENTURE

WITH ORIGINAL LYNX ACCESSORIES AND RIDING GEAR

When you and your Lynx sled are ready for an adventure, the right accessories and riding gear will ensure that the trip will be the best of the winter – regardless of the conditions.

Lynx sleds are designed specifically for the extreme Northern conditions, but it is sometimes a good idea to get some additional protection against surprises dished out by the elements and the terrain. The **skid plate** protects the frame and suspension of your sled even on the roughest

of trails. It is available in several colours matching the appearance of different Lynx models.

If your adventure will take place during a cold spell, it is a good idea to replace the **windshield** with a higher model, particularly on sportier

“Even with the most
careful planning, there
still remains one thing
you cannot control:
the weather.”

sled models. A new Lynx product for the 2015 season, the highest windshield available for the REX² models gives effective protection from wind and billowing snow.

STAY WARM IN FREEZING WEATHER

Naturally, proper clothing also protects the rider from the elements. The water and wind-proof **Flight riding suit** is well suited to long trips due to its versatility: thanks to its removable lining jacket, the suit always stays abreast of the situation. The insulated Flight riding suit also dries up quickly. Riders can adjust their feeling of warmth not only with riding suits but also with sets of under layers of different thickness. If you want to feel warmer at rest spots or in colder weather, don the **Lynx fleece coat**.

In addition to a spare set of thermal underwear, it is also a good idea to pack along spare **riding gloves and goggles**. Lynx goggles are available with pre-fit lenses suited to different situations. Yellow lenses, for instance, are suited to riding during a snowfall, while the mirrored lenses protect your eyes from the glare of the late winter sun.

The **Lynx helmet** is designed to both protect your head and keep you warm during the coldest winter: the helmet's air holes are pre-closed, which means that you do not need to start taping them shut in the middle of your trip.

MAXIMISE THE CARGO SPACE OF YOUR SLED

On a long trip, you must be able to bring along a lot of needful things. A new Lynx product for the 2015 season, the easy-to-use **semi-rigid bag** is designed to fit underneath the LinQ rack. You need the aluminium rack for fastening the bag. If you also equip your sled with the long **LinQ cargo box**, you can maximize the cargo capacity of your sled: the total capacity of the box and bag is a whopping 55 litres.

You can carry some of your equipment handily in a **Lynx back bag**. In it, you can pack equipment that must be available in all situations; for example, a first aid kit, fire making tools and a shovel saw.

SEE FARTHER AND BE SEEN

In the Northern winter, riding in twilight or dark is more of a rule than an exception. When the high beams of your sled

are switched on, they only light up an area farther away, but the **LED booster light kit** also lights up the area left dark immediately in front of the sled and 180 degrees to the sides. Travel is safer when you can detect, for example, animals moving along the sides of the trail.

For even more safety on your sled trip, you can install the **rear-view mirror kit** behind the windshield. This kit fits Lynx REX² models and provides the rider with a good and stable visibility to the rear. The rear-view mirrors allow you to ensure that your buddy is keeping up with your pace without your having to turn to check your six.

KEEP UP WITH THE SITUATION

Even with the most careful planning, there still remains one thing you cannot control: the weather. Even if your trip will only take a single day, you should keep your eye on temperature changes and anticipate their effect on your trip.

The new **Ambient Air & Engine Temperature Module** shows how low the temperature really is, without the heat from the sled's engine compartment distorting the reading. At

zero degrees centigrade, for instance, even a one-degree change in temperature can make the riding surface slippery, while a rapid fall in temperature affects fuel consumption. The outdoor thermometer then allows you to move up your next refuelling stop.

Particularly when your adventure takes to unfamiliar terrain, **GPS** is not a luxury – it is a necessity. Garmin Montana 650T GPS travels along handily in a mount that is easy to install. The GPS mount is available for the Lynx REX² and XU models, and it comes with a Plug and Play cable kit.

TAKE ALONG A TRAVEL BUDDY

The new, modular seat allows you to take along a friend who doesn't own a sled: you can convert your single-seated sled to a two-seater in a jiffy – without any tools required. The **LinQ double seat** has a sturdy back rest and handlebar heaters for added comfort. Indeed, spending free time in good company is the best part of winter-time adventures – from planning the trip to returning home. •

UTILITY

Hard work requires durability – also from clothing. The LYNX FAIRBANKS SUIT is designed for heavy wear in extreme conditions. Its materials protect professionals against sub-zero temperatures even better than before, whether on building sites or when ice fishing.

Sizes: XS - 3XL
Shell Fabric: Polyester.
Membrane: RPM Max. Teflon treatment.

TOURING & UTILITY

UTILITY. RECOMMENDED ACCESSORIES: 49 RANGER 600 E-TEC.

The Lynx YETI and Ranger utility sleds are designed for the harsh Nordic conditions that demand a lot – from both man and the machine. The extremely durable Lynx accessories ensure that no work is left half done. How much could you accomplish with a sled that is ready for both work and adventure?

N EXTRA HIGH WINDSHIELD 860201115

The highest windshield available for the REX² models gives effective protection from wind and billowing snow.

LinQ CARRIER CARGO SLEIGH 860201065

Turn your sled into an almighty beast of burden with a LinQ cargo carrier. This hi-tech sleigh has independent suspension, which guarantees a smooth ride for your cargo as well. The sleigh in the picture is equipped with extra sides, 2 x 715001665.

LinQ
SYSTEM™

LinQ
SYSTEM™

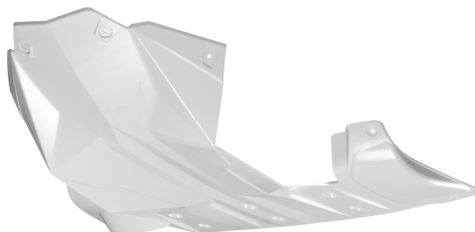

LinQ CARGO BOX, 40 L 860201196

Rigid molded plastic construction with integrated design. Provides safe storage. Attaches using 2 sets of LinQ mounts (included).

BLADE SKI LINER, SYMMETRICAL 860200749

There's no need to worry even if the trail is covered in deep snow: The Blade ski liner improves the load capacity of your sled.

SKID PLATE

860201047 white
860201046 black

Extra protection for the front frame and suspension of your sled on rough trails.

BEST SELLER **GPS KIT** 860200631

Stay on the map! The Garmin Montana 650T GPS kit is one of the best on the market and designed to fit your sled perfectly. Supplied with a plug-and-play wire harness. You will also need a glove compartment extension (860200707). Topographic maps are sold separately.

LinQ
SYSTEM™

N **LinQ** DOUBLE SEAT 860201181

This luxurious new seat is the height of modular seats and provides optimal comfort to driver and passenger alike. Without any tools, the sled can quickly and easily be changed from a one-seater into a two-seater and back. Includes complete seat kit with backrest. Installation requires a LinQ anchor base kit (860201111, see p.51), sold separately.

HD GEARBOX AND BRAKE DISK PROTECTOR KIT 860201134

Hard-wearing polyethylene kit for the ultimate protection of your snowmobile's front frame, chain box and brake disk.

BEST SELLER **LED BOOSTER LIGHT** 860201050

The first fully-integrated booster light on the sled market produces a powerful, almost 180° beam of light in front of the sled and to the sides. The light attaches handily underneath the standard headlamp and it has ON, OFF and ON HI settings. You no longer have to sacrifice your low beam when you switch to high.

EXTRA BUMPER

860200932 Black
860201099 Aluminium

The stylish aluminium bumper gives your sled extra protection in challenging terrain.

UTILITY

BEST SELLER
REAR RACK BOX
860200768

WIDENING KIT

860200835

Widening kit with an A-arm. More stability when turning on steep slopes. Adds 92 mm of width to the front suspension.

CTEK BRP 5.0 BATTERY CHARGER

860200997

CTEK – manufacturer of the world's most advanced battery chargers – has developed a charger that works with all BRP products. The charger is specially designed for arctic conditions. The charger is available as an accessory for all battery-powered BRP snowmobiles. For more information, ask your local dealer.

BEST SELLER
HILL BRAKE
860200716

Advanced hill brake application for safe stopping on steep hills.

Brake on

Brake off

Range of professional accessories for the new and improved Lynx 69 Ranger Alpine. All accessories are designed specifically for ski center maintenance.

UTILITY. RECOMMENDED ACCESSORIES: 69 RANGER ALPINE.

TOURING

Even if the spring sun goes and hides behind a cloud, LYNX KIDS SUIT keeps the smallest members of your expedition warm – and content. The suit also provides excellent protection during break-time snow games! The rider's choice for a wintry expedition is the warm and hard-wearing LYNX FAIRBANKS SUIT, see page 29.

Sizes: 2, 3, 4, 5, 6
Shell Fabric: Nylon.
Membrane: RPM Max. Teflon treatment.
Fit: Loose-fitted.
Lining/Insulation: Jacket: Primaloft Black 133 grams,
Pants: Primaloft Black 100 grams

LYNX KIDS SUIT

JACKET: 657004_80

- Removable hood
- YKK waterproof zippers
- Two-way front zipper
- Double storm flap
- Fleece inside the collar
- Elastic cord and adjustment toggle at hem
- 2 side pockets with zippers, with fleece lining
- D-ring killer loop

PANTS:

- High waist with zipper
- YKK waterproof zippers
- Suspenders
- Leg gaiters
- Adjustable leg length
- Reinforcement patches on seat and knees

KIDS

TOURING. RECOMMENDED ACCESSORIES: ADVENTURE LX 600 ACE.

The Lynx Adventure sled offers the most comfortable ride into the snowy nature, even for the whole family. Original Lynx accessories are suitable for touring and give both the rider and the passenger the ultimate riding experience. What kind of experiences will you get to share from your next adventure?

BEST SELLER
GPS KIT
860200631

Stay on the map! The Garmin Montana 650T GPS kit is one of the best on the market and designed to fit your sled perfectly. Supplied with a plug-and-play wire harness. You will also need a glove compartment extension (860200707). Topographic maps are sold separately.

GLOVE COMPARTMENT EXTENSION

860200707

Thanks to the handy extension, you get 50% more storage space in your Adventure sled. The glove compartment extension replaces the lid of the standard compartment, and its front panel makes an excellent docking station for your GPS.

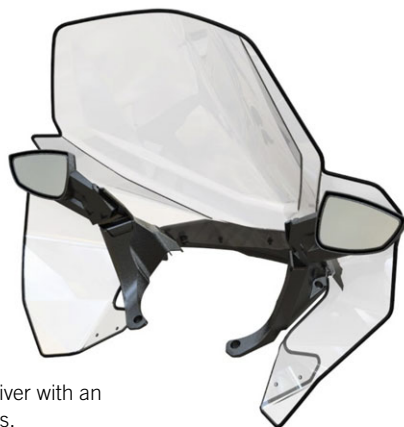

HEATED VISOR KIT
619590073

REAR VIEW MIRROR KIT

860201156

Mounted behind the windshield, the new mirrors provide the driver with an unobstructed, stable view to the rear. The kit fits all REX² models.

LinQ SYSTEM™

LinQ BAG, SMALL, 10 + 3 L

860200918

The LinQ system lets you customize the storage space in your sled and attach your bags securely. The stylish black bag is supplied with the LinQ attachment system (860200583).

LinQ SYSTEM™

BEST SELLER
LinQ BAG, MEDIUM, 19 + 3 L

860200917

Durable bag for extra storage space for tools and other gear. For maximal storage space, combine with a small LinQ Premium bag in a track tunnel of at least 137". Supplied with the LinQ attachment kit.

HANDLEBAR BAG, LARGE

860200919

Now you can pack everything you need in rough terrain! The 3W heater (sold separately, 515176786, requires Heated Visor Kit 860200628 sold separately) in the bag which attaches to the handlebar keeps your cell phone and GPS warm and functional however cold it is out there. The bag also contains insulated pockets for two 0.5-L bottles. RCA Adaptor plug kit (515176794) is sold separately.

BEST SELLER
SIDE COVER AIR DEFLECTORS
860201068

Complete the sporty look of your sled with air deflectors that deflect the wind past your legs.

ENGINE HEATER KIT
860200367

Available for the 600 ACE, the 900 ACE and the 1200 4-TEC.

TOURING

"Overall, I must say that the LinQ cargo carrier sleigh is absolutely the best sleigh model we have tested."

- Mika Harri, Lapland Safaris

IN ACTION ON THE ARCTIC OCEAN

Lapland Safaris put the LinQ cargo carrier sleigh to the test

Finnish Lapland Safaris is the largest tourism programme service company in the Nordic countries. Its main products are snowmobile safaris and other guided tours and activities in the nature. Annually, the company has around 140,000 customers,

95% of whom are international tourists. The company's garages in Rovaniemi, Ylläs, Levi, Luosto, Saariselkä and Muonio have some four hundred snowmobiles, a majority of which are BRP's Lynx and Ski-Doo four-stroke models.

Lapland Safaris put the LinQ snowmobile cargo carrier sleigh into real power use: three safaris to the Arctic Ocean totalled 1,750 km of testing. The experience was positive: – The sleigh is versatile, durable and, first and foremost, designed for carefree riding over bumps and

through deep snow. The tall but well-balanced sled follows the snowmobile without surging and rides well on top of the snow. It allows speedy riding in conditions that caused constant problems for the other models we use, describes Mika Harri, the Saariselkä Area Manager for Lapland Safaris.

– Overall, I must say that the LinQ cargo carrier sleigh is absolutely the best sleigh model we have tested. •

DRESS CODE: Casual. Lynx is your label even when you've parked your sled – for the evening or until the beginning of the next riding season. Whether you spend your free time relaxing or engaging in other extreme sports, high-quality Lynx sportswear is comfortable and hard-wearing. Nail your colors to the mast with style!

SPORTSWEAR

LYNX TECHNICAL FLEECE

659045_07 Grey/Black

Soft and warm fleece for midlayer and freetime use. Lynx racing details and sponsor logos. Designed for use as a midlayer fleece. Preshaped sleeves, YKK zippers, chest and side pockets with zippers, elastic draw cord at hem.

XPS SYNTHETIC CHAINCASE OIL, 355 ml

619590098

The best in multigrade chain lubrication, specifically developed for high-performance models. Offers wide operating range of temperatures.

XPS STORAGE OIL, 350 g

619590094

Protects the engine's internal parts against corrosion and moisture out of season.

XPS MINERAL GEARBOX OIL, 250 ml

619590099

Mineral-based gearbox oil.

FUEL STABILIZER, 237 ml

619590096

Fuel additive for protection against fuel contamination and residue build-up in carburetors and gas lines. Highly recommended for use before snowmobile storage. Suitable for all gasoline engines.

FULLY SYNTHETIC XPS TWO-STROKE OIL

619590106 • 946 ml

619590107 • 3,785 ml

Fully synthetic XPS two-stroke oil provides ultimate protection for your Rotax engine and especially the E-TEC® 800R engine. Offers excellent thermal protection and lower emissions compared to traditional oils.

XPS SYNTHETIC GEARBOX OIL, 1 L

619590182

(Not illustrated)

Models with gearbox

PULLEY FLANGE CLEANER

619600022 • 320 g

Easy-to-use cleaner specifically developed to quickly remove gunk and grime from primary and secondary pulley flanges. No rinsing required.

XPS LUBE, 414 ml

619590093

Multipurpose lubricant spray. Removes moisture and prevents corrosion and wear. The bottle also works upside down.

XPS TWO-STROKE MINERAL OIL

619590100 • 946 ml

619590101 • 3,785 ml

Mineral-based injection oil. Designed for oil-injected Rotax carburetor engines. Offers optimal oil flow even in extremely cold conditions. Low-ash oil for premium lubrication, protection against corrosion, and engine cleanliness. Also suitable for use as a pre-mix.

PRE-MIXED ANTIFREEZE/COOLANT

(Not illustrated)

619590183 • 1L

Pre-mixed, ready to top up your coolant level. Blended to perform best in our Rotax engines with anti-corrosive additive.

619590204 long life • 946 ml

FULLY SYNTHETIC XPS FOUR-STROKE OIL FOR WINTER USE

619590114 • 946 ml

619590115 • 3,785 ml

SAE 0W-40. This fully synthetic four-stroke oil is designed specifically for winter use in BRP products equipped with Rotax four-stroke engines. Facilitates start-up, protects the engine against wear, and ensures performance even in the most challenging winter conditions. Protection against rust and corrosion during storage.

THE WORLD IS OUR PLAYGROUND

Nothing is more valuable than your playtime. That is why BRP is dedicated to continually finding new and better ways to help you enjoy your favorite power sports. From snow to water to both on- and off-road fun, our passion for adventure fuels the innovations that result in the ultimate power sports experience for our customers. We value

the land and water we play on and are committed to protecting it. Our desire to thrill is paired with an emphasis on rider responsibility, placing personal safety above all else. So that each outing can be the most enjoyable, memorable and thrilling experience possible. Because your free time should always be your best time.

Because of our ongoing commitment to product quality and innovation, we reserve the right at any time to discontinue or change specifications, prices, designs, features, models or equipment without incurring obligation. Always consult your snowmobile dealer when selecting a snowmobile for your particular needs and carefully read and pay special attention to your Operator's Guide, safety instructions and to the safety labeling on your snowmobile. Always ride responsibly and safely. Always wear appropriate clothing, including a helmet. Always observe applicable local laws and regulations. Don't drink and drive.

Units in pictures can be equipped with optional accessories.
