THE RIDE SAYS IT ALL

WHY CHOOSE CAN-AM ACCESSORIES?

QUALITY & SEAMLESS INTEGRATION.

It's that simple. We design and build industry-leading ATVs and SSVs, so no one is more qualified to create their accessories. Our commitment to innovation, high-quality materials and seamless integration ensures that those made by Can-Am for Can-Am vehicles have an edge the other makers don't. They fit in and fit right, look great, and are made to last. Only Can-Am accessories can truly make it your Can-Am.

TRUST & RELIABILITY.

It's built into every thing we make, even the warranty. It's why off-road enthusiasts trust Can-Am accessories. It only makes sense because when you buy and install genuine Can-Am accessories at the time of vehicle purchase, you get the same manufacturer's limited warranty*.

We build them - we back them. Which is why for generations you've trusted us to get you there, and you know you can trust us to keep you going.

PERFORMANCE & PERSONALITY.

Nothing beats the ride – the ultimate quest for power, performance, excitement, and freedom rolled into one, driven by an unquenchable thirst for adventure. And nothing beats Can-Am for creating the ultimate in customized ride-enhancement accessories, ensuring it's always about you. There's an accessory for every kind of ride and any size job - Can-Am gets you there, and gets it done.

ALONE, IT'S A RIDE. WITH FAMILY, IT'S AN ADVENTURE.

Adventure. It's a passion. But it's one best shared with friends and family. Which is why exploring the limitless horizons with those who matter most makes the experience richer, more rewarding, and more alive. There's so much still to be discovered, so bring along those who make the ride worthwhile.

GETTING IT DONE. IT'S IN YOUR BLOOD.

Hard work. You thrive on it. Getting the job done is what gets you going. Whether it needs to be pulled, pushed, torn down, built from scratch or hauled across 1000 acres, it will. Because it's what you do. It's who you are.

MAKING IT THERE IS GREAT. MAKING IT THERE FIRST IS BETTER.

You always finish first. You can't even say the word "almost". Dunes may put up a good fight but in the end you own them, and you're not afraid to show it. Carving across endless mountains of sand is more than a thrill, it's life. Your life. And you always live big.

SUCCESS IS YOUR PREY. DETERMINATION IS YOUR STRATEGY.

Nothing escapes you. You know where the prize is, and how much you want it. A razor-sharp acumen and instinct driven by obsession fuel your quest. Your every move is deliberate, every step stealthy, and every whisper muted by anticipation. You're bringing this one home, and you know it.

MUD IS MEAN. YOU'RE MEANER.

Some riders flinch at the sight of mud and prefer the predictability of a well-groomed trail. Different strokes for different folks...we get it. But for you mud isn't an obstacle to avoid, it's your best friend, throwing out a challenge you simply can't refuse.

OTHERS HEAD SOUTH. YOU HEAD OUT.

There isn't a blizzard big enough to keep you indoors. Cold, wind and huge drifts don't scare you - they're the icing on the cake. Showing Mother Nature who's boss is what gets you up in the morning. You're the one others trust to clear a path when the path has all but disappeared.

For warmer riding conditions and more active riding, you might want to opt for a cross helmet with goggles. In highly active riding where you will be sweating and breathing hard, goggles are the best solution for clear vision, and the extra open area will keep you from overheating.

TEFLON[†]

Teflon provides an invisible barrier around fabric fibers to repel water and stains. In addition to retaining its water shedding properties longer than standard Teflon, Teflon HT and HP are also even more resistant to soiling and staining without altering the fabric's color, appearance, structure, texture and breathability. Teflon HT, good up to 20 washes, and Teflon HP up to 30 washes, compared to manufactured coatings washable only 1 to 5 times.

HIPORA[†]

Windproof, breathable and waterproof membrane that features unique polyurethane coating technology and delivers excellent moisture management.

DWR[†]

DWR stands for Durable Water Repellency. This treatment helps prevent the outer fabric surface from absorbing water, keeping the outerwear both light and comfortable.

BASE LAYER FABRICS & FIBERS

X-STATIC

X-STATIC eliminates 99.9% of bacteria to prevent odors. See our Active Base Layers P.62

MERINO WOOL

Excellent at regulating body temperature, even when damp. See our Socks P.63

COCONUT FIBER

Natural material increases breathability by 40%. See our Ultralight Base Layers P.62

TECHNICAL WEAR

WHAT'S UNDER THE SHELL COUNTS

To keep warm, you've got to keep dry. Our technical base and mid layers wick perspiration away from your skin where it can evaporate quickly for all-day warmth.

HOW IT WORKS

Each layer has a function. You get the best performance and versatility when you dress in a system with base layer, mid layer and outer layer.

OUTER LAYER

Keeps wind and water out. Adds insulation for warmth.

MID LAYER

Dials in your warmth level. Add or remove during the day as conditions change.

BASE LAYER

Close to the body to wick perspiration and prevent chills. Adds warmth. Avoid cotton — it gets wet and stays wet.

BASE LAYER

YOU ARE AN INTENSE, ACTIVE RIDER, WHICH CAUSES YOU TO SWEAT.

MEN'S ACTIVE BASE LAYER

- X-STATIC[®] enhanced through to the fiber to thermodynamically regulate your temperature by conducting body heat out in warm weather and reflecting body heat back to the skin in cold weather.
 - Permanently treated for long-lasting antibacterial performance undiminished even after 250 washes.
 - Silver woven into fiber immediately binds with odor-causing agents such as ammonia and denatured proteins to instantly reduce odor.
 - Mesh panels in specific areas for better ventilation and accelerated drying.
 - Compressed for added comfort.
- 92% Polyester, 6% Spandex, 2% X-STATIC[®]

HOW TO MEASURE

- For best results, have someone else take measurements.
- Measure body in underwear.
- Tape must be snug but not tight.
- If measurements fall between two sizes, order the larger size.

Chest/Bust: Measure under your arms, around the fullest part of your chest.

Waist: Measure around your natural waistline, keeping one finger between the tape and body.

Gloves: Measure palm width.

Inseam: Without shoes, from crotch to the floor.

Arm length: Hand on hip, from center back neck bone, along shoulder point round elbow to bottom of wrist bone.

Head: Around your head, from the center of the forehead, above the ears and over the natural bump at the back of the head.

60" (152 CM) ALPINE FLEX PLOW KIT

MADE TO CONQUER

The ultra-resistant UHMWPE thermoplastic is designed to flex and better absorb impacts. Add to that a snow-devouring nylon cutting blade and you're equipped to tame any snowfall.

60" (152 CM) ALPINE SUPER-DUTY STRAIGHT PLOW KIT

MADE TO CLEAR

Rugged always rules, and when it comes to throwing snow farther and faster, this plow tears through and makes short work of the most challenging drifts.

54" (137 CM) ALPINE SUPER-DUTY STRAIGHT PLOW KIT

MADE TO MOVE

This steel plow won't easily bend or break. Adjusts in seconds providing excellent clearance around tight areas, and its convenient 5-point swivel makes it ideal for use on a range of surfaces.

PLOWS

ALPINE FLEX PLOW 54" (137 CM) & 60" (152 CM)

- Clears 50" (127 cm) when plow is angled.
- Ideal for clearing narrower areas, like sidewalks.
- Plow made of flexible UHMWPE, which delivers the highest impact strength of any thermoplastic presently made.
- Enormous flex action prevents damaging your plow when accidental impact happens.
- Impact absorption properties return plow to its original shape.
- Rearward release action practically eliminates jolts from being transferred to the driver or unit.
- Attaches and detaches effortlessly thanks to a fast and easy mounting system.
- Blade-turning mechanism mounted high to eliminate having to bend down to change or adjust blade's angle.
- High pivot point keeps plow on pavement.
- Compatible with all Alpine Flex Plow accessories to further enhance plow versatility.
- Refer to the chart on page 105 for the fitting.
